

Powerful Parenting!

-Highly Effective and Unique for 6 Reasons!

the

1. Powerful Parenting™ -Leaves No Stone Unturned!

'Parenting Parenting-12 simple steps to behaviour success!' will give you a completely new way of approaching your parenting and managing your child's behaviour. This program will give you a parenting toolkit packed full of powerful strategies covering everything from setting up the home environment to succeed, teaching for powerful behaviour, communicating for success, and avoiding toxic forms of behaviour management through to evaluating the school or care environment, responding with meaningful consequences, building self esteem and establishing quality relationships. No stone has been left unturned!

2. Powerful Parenting™ -Is All About Long-Term, Genuine Success!

Powerful Parenting aims to show you how to be a firm yet loving parent as well as a skilled and confident behaviour manager. The strategies in this program are not something you will 'do' for a few months and then stop... Once you learn them-you will make them your own and come to rely on them as a part of your parenting as your child transitions from early childhood to those challenging upper primary school years! Through this program you will be assured of long-term powerful parenting success!

3. Regardless Of Ages Or Behaviours Powerful Parenting™ Will Work!

To have a program that is effective regardless of your child's age or behaviour, is without a doubt, what makes this program a leader in the field of behaviour management. Most programs have lists of rules and procedures for separate behaviours and cater to a small range of ages. Many are highly academic and readily fail as children get older and wiser! Powerful Parenting is a one-size-fits-all, easy and practical program that will show you step-by-step how to cater to your child's needs and give them the skills they need for ongoing social and emotional success!

4. Powerful Parenting™ -A Dynamic 'Parent-And-Child' Training Program!

Not a 'child only' nor a 'parent only' training program, Powerful Parenting is a 'Parent-and-Child' training program-the most effective format to ensure genuine change takes place for both parent and child. Powerful Parenting works hard to help the whole family turn to a new page and start over again! There is nothing more powerful or effective than the whole family learning, achieving and succeeding together!

5. Powerful Parenting™ -Is Based On PREVENTATIVE Behaviour Management!

Behaviour management is such a complex area and there are so many parents and children needing help. Unfortunately most behaviour programs focus on reacting to behaviour in the hope of changing it! Behaviour is so much more complex than that! So Powerful Parenting won't show you how to punish your child or where to hit them; and it won't show you how to put your child on the ridiculous 'time-out' chair or silly naughty mat, and won't mention counting to three and waiting for the 'magic' to start happening! What it will show you is how to access powerful Preventative Behaviour Management to set your child up to be confident, independent, controlled and socially skilled! (We'd like to see any chair do that!)

6. Powerful Parenting™ -About So Much More Than Behaviour Management!

Powerful Parenting doesn't pull any punches. It's based on down-to-earth, practical, yet highly effective strategies that will put in back in the control seat where you belong... It's honest, easy-to-follow, and will result in huge changes for the whole family. It will challenge and inspire you to become a strong, firm and fantastic parent your child will look up to, while at the same time help your child to become a respectful, kind, loving and caring son or daughter you will be proud of. About far more than managing behaviour this program will have you all embracing change, building onto your successes; having fun together, celebrating your achievements, and enjoying that peaceful, happy family dynamic you all deserve!
